# DELTA PACIFIC SEAFOODS EXPANSION

## ABOUT THIS PROJECT

- + Two-storey expansion to accommodate additional office, warehouse, and manufacturing space.
- + Project included demolition, excavation, plumbing, HVAC, and electrical changes while the existing facility remained fully operational.
- + Provided electrical design consultation, advising on the best electrical solution for each of the refurbished office spaces, processing rooms, and warehouse and refrigeration facilities (including an ammonia based refrigeration plant, coolers, freezers, and several -40oC blast freezers).
- + Electrical scope included lighting and power, as well as connections for the processing equipment.
- + Engaged to work on a substation upgrade in addition to the expansion.
- + Provided an assessment of existing infrastructure, making recommendations to improve overall operations.
