EARLS TEST KITCHEN

ABOUT THIS PROJECT

- + Located downtown, Earls Test Kitchen serves a variety of purposes, including staff training and real-time diner engagement.
- + Audio-visual design allows the public to see live streams of their dishes prepared and conceptualized throughout the week.
- + Electrical design and equipment selection for the electrical upgrade overcame the challenge of insufficient available power.
- + Procured LED lighting and low energy consumption equipment.
- + Performed further load testing to ensure adequate loading.
- + Renovations to the second floor space were also completed as part of the project.
